TODAY'S GIVEAWAY

Fanatec Headshot Controller

Manufacturer: Fanatec

Why You Want to Win It:

There are n00bz out there just begging to be pwned.

The Skinny:

We haven't been to a LAN party in quite a while, but should we get invited to one, we're bringing the Headshot with us. The mouse itself uses a highly-sensitive lazer tracking system to keep your aim straight and true, while its plasmaGlyde feet keep it sliding effortlessly over the special mousepad. With added features like multi-colored lights, a USB hub built into the pad and a mouse that can be adjusted to fit the size of your hand, you'll wonder how you ever insulted *Half Life 2* by playing it with a normal mouse.
